Place a large (5") blast template so that its central hole is directly over the centre of a unit the caster is engaged in combat with. Once placed, the template will scatter D3"+1. Any model (friend or foe) whose base lies underneath the template's final position risks being hit (as described on page 95) and suffering a single Strength 4 hit with an AP of -1.

This spell can only target friendly characters, but may target characters engaged in combat. You may immediately remove the target friendly character from the battlefield and replace it anywhere within 2D6" of its original location, but not within 3" of any enemy models. However, if a double 1 is rolled, the character lands badly and loses a single Wound. Note that this spell allows a character to leave combat.

Remains in Play. Place a large (5") blast template so that its central hole is within 15" of the caster. Whilst in play, the template is treated as dangerous terrain. The template moves 2D6" in a random direction during every Start of Turn sub-phase. Any unit (friend or foe) the moving template touches or moves over suffers D3+3 Strength 5 hits, each with an AP of -1.
