Place the small/large round template anywhere within 18" of the caster. Roll the artillery dice and the scatter dice. Unless a Hit! is rolled, move the template the distance shown on the artillery dice, in the direction shown on the scatter dice.

If a misfire is rolled, centre the template on the caster and roll a scatter dice and a D6/2D6. The template moves the number of inches equal to the result of the D6/2D6, in the direction shown on the scatter dice (if you roll a Hit!, use the little arrow shown on the Hit! symbol).

Once the final position of the template is determined, all models under the template must take an I test. Models that pass the test suffer a S 3 hit. Models that fail the test suffer a S 7 hit with Multiple Wounds (D6).
